

# Release Plan

Product Name : Movie Night  
Team Name: Motion Pic & Chill  
Release 1  
Release date: TBA  
Revision #: TBA  
Revision Date: TBA

## Higher Level Goals

- Read from other movie database website's API and fill out the web page with information
- Be able to enter at least 5 movie titles to be used to help suggest a movie to watch
- Creating a cookie on the client's computer for future reference on movie recommendations

## User stories for release

Sprint 1:

- (4) As a user, I want to be able to see the new release movies as I enter the website
- (4) As a user, I want to be able to search movies by their movie titles

Sprint 2:

- (3) As a user, I want to be able to access the movie recommendation page

Sprint 3:

- (4) As a user, I want to be able to enter up to 5 movies into the movie recommender
- (2) As a user, I want to be able to delete the movies I inputted into the recommender

Sprint 4:

- (3) As a user, I want to be able to get a list of movie recommendations
- (4) As a user, I want to keep track of the movies I selected before and use it for the new search inquiry.

## Product backlog:

- Show the websites where the movie we recommend is streaming on, and the pricing of the movie

- As a user, I want to be able to see where I could go to watch the movie
- Be able to auto-fill text of movie titles
  - As a user, I want to be able to not type the entire movie title and see suggestions for movie titles through autofill.
- Be able to show movie information about each movie
  - As a user, I want to be able to see a blurb of the movie description when I hover over the movie image.
